TO ARBITRATE MINERS' STRIKE. State Board Will Meet at Moberly, Mo., April 1.

REPUBLIC SPECIAL Jefferson City, Mo., March 27.—Governor Dockery is to-day in receipt of a telegram from Ford A. Allen of Kansas City, member of the State Board of Arbitration, stating that the striking miners and the mine owners of Macon and Randolph counter have agreed to arbitrate their differences. A meeting of the full Board of Arbitration has been called at Moberly, April 1, at which time both parties to the controversy will be heard and a decision rendered.

This agreement to arbitrate is a very happy outcome of what seemed likely to develop into an unpleasant controversy. The Governor, Mr. Allen, State Coal Mine Inspector Evans and the State Labor Commissioner have been active in their efforts and the mine owners. ber of the State Board of Arbitration, stat-

President Castro Displays Great Activity and Fertility of Resources.

MAY CAPTURE GENERAL RIERA.

Immediate Success of the Revolution Is Now Regarded as Problematical—Two Towns Are Menaced.

Willemstad, Island of Curacoa, March 27.-The Venezuelan revolution, according to advices received here yesterday, has not realized what it promised last week. The Government forces have reoccupied Port LaMar and Juan Griego, on the Island of Margarita, and still hold Carupano, Cumana, Barcelona, all in the State of Bermudez. A force of 1,000 revolutionists, under Domingo Monagas, which has been besieging Barcelona, has retreated before the Government forces.

The town of Barquisimeto, in the State of Lara, continues to be menaced by the revolutionists.

President Castro appreciates the real danger of the situation, and manifests as on-ishing activity and intelligence. The immediate success of the revolution is looked upon here as being problematical.

The revolutionary steamer Bolivar was reported March 21 as being at the mouth of the Orinoco. March 22 she was said to be at Guiria, and March 23 it was rumored that the ways of Trivides.

that she was at Trindad.

The Venezuelan authorities continue to make arrests throughout the Republic, Further advices received to-day anounced that San Antonio, in the State of Bollvar, and Maturin, in the State of Ber-mudez, were in the hands of the revolutionary forces, and that 2,000 revolutionists, under Generals Monagas, Penaloza and Ro-lando, had united in an advance, and were menacing Cumana and Barcelona. The situation of General Riera, in the State of Falcon, is said to have become

Judgments for \$17,500 for Personal Injuries Against Company.

Attorney Clifford B. Allen obtained judgment for \$15,000 against the St. Louis Transit Company in Judge Zachritz's division of the Circuit Court yesterday, for injuries received October 9, 1900, by being struck by a Fourth street cable car.

The evidence showed that Allen was getting on a car on Lafayette avenue near California to go downtown, and while on the step was struck by an outbound car. His left ankle was fractured, three fingers of his left hand were injured so, that a part of each had to be amputated, and he was otherwise injured. He sued for \$25,990.

John Horey, a fireman, obtained judgment in Judge Wood's division of the Circuit Court yesterday against the St. Louis Transit Company for \$2,990 damages for injuries alleged to have been received October II last, by a hose carriage he was driving being struck by a car at Broadway and O'Fallon street. Horey's spinal column was injured, as were also his head and shoulder. A. R. Taylor, his attorney, stated that the company offered to compromise for \$2,000.

Inspector Jones Will Not Prose cute Under City Ordinance.

After all the weary walting for the enactment of amendments to the city smoke rdinance, Charles H. Jones, Smoke Inspector, announced yesterday that the State courts and the State law would be invoked

courts and the State law would be invoked to punish violators.

Mr. Jones conferred with City Counsellor Bates and was advised by him that it would probably expedite the enforcement of the smoke law in St. Louis if he applied directly to the Court of Criminal Correction for warrants. This would prevent the delay of appeal in cases where offenders were disposed to fight.

"Upon the advice of Mr. Bates," said the Inspector, "I shall go to Richard Johnson, Assistant Prosecuting Attorney, for warrants as soon as I have prepared the evidence against offenders."

Instead of the police being called in to make arrests, as has been provided by the new city ordinance, papers will be served by Deputy Sheriffs, under a law that has been in effect since last June. Mr. Jones says that in emergency cases, for instance, where the owners of boiler plants contest the right of the inspectors to enter the building, the police might be called upon, but not in any other sevent.

The Inspector prepared a list yesterday of seventeen engineers who are using effective smoke-consuming devices, who will be called upon as witnesses. The list embraces different types of plantag and covers almost all the styles of cansumers.

St. Louis yesterday with a shipment of Carolina poplars, a gift to the citizens of St. Louis. Mr. Babcox will personally supervise the distribution. In the shipment are trees to be planted by the Board Education in the grounds of the various schools, including the Eugene Field. The trees are on the switch at Union avenue and the Wabash tracks, near Forest Park, and to-day and to-morrow Mr. Bab-Park, and to-day and to-morrow Mr. Bab-cox will see that they are properly planted. The holes have already been dug. The trees are an especially fine lot, with vigorous roots and well topped. Mr. Babcox says that not one of them need be lost if prop-erly planted and intelligently pruned and cared for afterward.

Recent Order Bars Texas Cattle From the Indian Territory.

Fort Worth, Tex., March 27.-The order ssued by United States Revenue Inspector Cobb at Vinita, I. T., which prevents the importation of Texas cattle into the Cherimportation of Texas cattle into the Cherokee Nation, will be a severe blow to many cattlemen of this State, who have already arranged to take thousands of cattle into that nation for grazing. It is estimated that half a million head were to go to that country beginning next month. The Santa Fe was to handle nearly 20,000 head alone. The stockmen of Texas will be heavy losers because of this ruling, as it will necessitate their taking cattle to other pastures, provided they can be had, which is a mooted question, as most available lease lands have already been taken.

PUT CONSTABLE TO FLIGHT. Railroad Laborers Have Aroused

the Ire of County Officials.

Vienna, Mo., March 27 .- Sheriff J. L. Copeland this morning organized a posse of officers to go to Belle, the present terminus of the St. Louis and Colorado terminus of the St. Louis and Colorado Railroad, to arrest twenty Austrian laborers, who are charged with violating the law and resisting officers.

There are quite a number of laborers camped two miles west of Belle, and they have been retailing whisky and beer without the necessary license, either Government or county. A warrant was issued by Justice Pinneli of Bells, and Constable Charles Terrill was ordered to serve it. Yesterday he went to the camp and was in the act of reading his warrant to the leader of the crowd, when the latter darted in his tent and emerged a few seconds later with a shotgun and fired point-blank at the officer, who would undoubtedly have been killed had not a bystander, who had accompanied the Constable, struck the gun and spolled the Austrian's alm.

The sound of the shot had hardly died away, when twenty of the Austrians dashed from their tents, some with guns, others with pistols, rocks, knives and clubs, and Constable Terrill only saved his life by flight, followed by many bullets and other missiles, though but one rock found its mark.
